

cytric

Your online booking system

Self-explanatory and easy to use, this online booking system offers your employees solutions that are perfectly matched to their requirements and the option of booking immediately. Start with the basic version (cytric One), or select the solution for medium-sized companies (cytric Business).

Perfect planning and clever bookings

cytric provides you and your employees with the most cost-effective travel options at a glance – saving money and time. And the best part is that cytric is simply and clearly designed.

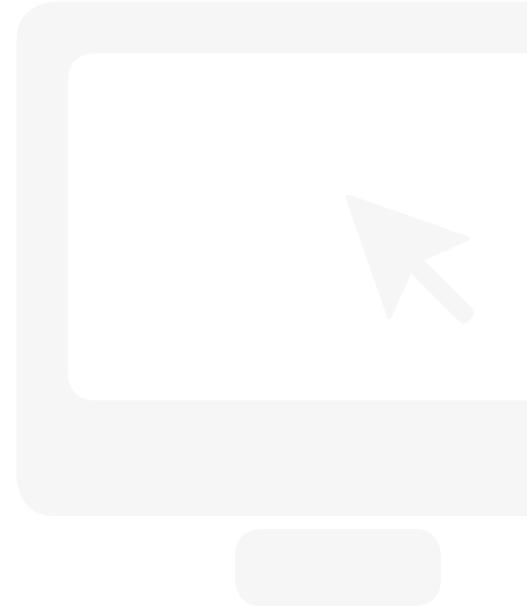

cytric will show you the most direct path to a booking. While doing so, your travel profile with seat preferences, credit card or frequent flyer number will be stored and used. The best-buy function shows you the most affordable rate. After the booking has been completed, the data will be forwarded to your FIRST Business Travel team, who will then process your booking.

cytric One – 5,000 service offers with one mouse click

The entry software cytric One is the smart solution for cost-conscious small and medium-sized companies. You will benefit from affordable online rates for flights, hotels, hire cars and rail travel and be able to automatically book in accordance with your internal company travel guidelines. Time-consuming research will be a thing of the past thanks to the integrated best-buy function. cytric One enables you to easily organise all your business travel online.

cytric Business – the 30-second booking process

cytric Business offers customised solutions for medium-sized companies. By customizing the travel policies per location you can use an online reservation system for the entire company. The convenient Travel Arranger dashboard, which displays all booked travel in a calendar at a glance, makes cytric Business particularly suitable for companies with a centralised booking system and complex structures.

Your advantages at a glance

- Reservation of flights, hire cars, rail travel and hotels on one platform
- Integration of up to 100 low-cost carriers
- Direct interface to all hire car providers
- Integration of HRS and other hotel providers
- Available 24 hours a day, 7 days a week
