

FIRST® Mobile Traveller

The app for your business travel

Nowadays, it is absolutely essential to always be up to date wherever you are. That is why we are offering a free mobile travel planner – the FIRST® Mobile Traveller. This service means you always have all relevant information on your travel itinerary on hand.

Active assistance throughout your entire business trip

With the FIRST® Mobile Traveller, all information from your itinerary is available to you offline; an internet connection is only necessary to sync the data. This allows you to avoid expensive roaming fees. As soon as there are any changes to your itinerary (e.g. a delayed flight), you will be informed proactively. Meaning you can react quickly and make the most efficient use of the time gained.

Advantages of the FIRST® Mobile Traveller

- Detailed information on flight times, departure terminals, hotels and hire car information, booking codes and ticket numbers
- Provision of a PDF document with country information before departure
- Push function: immediate notification in the event of changes in the itinerary or safety-related events (gate change, delay, natural disasters, terrorism, strikes, demonstrations etc.)
- Online check-in, call-up of DB rail online codes, display DB seat only
- Addition of your own content to the itinerary, connection search (flights and rail)
- Worldwide emergency numbers, routing to airports, presentation of hotel address in country-specific alphabet for orientation and communication locally
- Currency calculator with updated currency rates, weather forecast for all travel destinations
- Direct dial function or email form to contact your FIRST Business Travel office
- Calendar synchronisation/app to iOS + Android + BlackBerry
